

### Fraction/Decimal Number Line 4NF6

NAME \_\_\_\_\_

Use the line drawn below as your base line. You will need to **produce a number line that has fractions on the top and decimal equivalents on the bottom of the number line**. You are required to have **at least 10 fractions and decimal equivalents**. The more you create, the higher your grade. The example shows a variety of decimal place value. For this assignment, you are to **round your decimal answers** to the **HUNDRETHS** place. Here is a little example.
